## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on 2-5-05. These drawings are acceptable.

### ***Allowable Subject Matter***

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention includes independent claims 1 and 8. Claim 1 recites a method using a computer system for analyzing the value of a deposit liabilities base associated with a financial institution and for originating contractual documents specifying a deposit liability option contract through which the financial institution obtains a right to sell the deposit liabilities base to a third party at a predetermined price. Claim 8 recites a method using a computer system for analyzing the value of a deposit liabilities base associated with a financial institution seeking to obtain a right to substitute other deposit funds not originally included in the deposit liabilities base, while also seeking to purchase the right to sell a deposit liabilities base, and for specifying a deposit liability contract through which the financial institution obtains the right to sell the deposit liability base to a third party at a predetermined price.

Art Unit: 1762

Odom is considered the closest prior art. Odom discloses a method using a computer system for analyzing a financial asset through which there is obtained a right to sell the asset to a third party at a predetermined price (col 5, lines 10-25). The estimated market value or range is calculated, and a minimum potential bid price or range is generated and incorporated into the asset as a financial instrument that a third party will pay during a predetermined term (col 8, lines 3-16).

Odom does not disclose:

In Claim 1, the recitations in combination including: analyzing external market data, and internal data pertaining to the financial institution, and inputting at least some of the external market data and the internal data to the computer system;

calculating an estimated market value or a range of such values for the deposit liabilities base;

generating a minimum potential bid price or a range of such prices for the deposit liabilities base; and

incorporating the generated bid price or the range of such prices into the contractual documents, wherein the price or range of prices which the third party will pay during a predetermined term for the deposit liabilities are specified;

whereby the value of the deposit liabilities base is determined permitting the deposit liabilities base to be sold if desired. but not thereby requiring divestiture of the deposit liabilities base from the financial institution.

In Claim 8, the recitations in combination including: analyzing external market data and internal data pertaining to the financial institution, and inputting at least some of the external market data and the internal data to the computer system;

calculating an estimated market value or a range of such values for the deposit liabilities base;

generating a minimum potential bid price or a range of such prices for the deposit liabilities base; and

incorporating the generated bid price or the range of such prices into the deposit liability contract, wherein the price or range of prices which will be paid during a predetermined term for the deposit liabilities are specified;

whereby the value of the deposit liabilities base is determined, permitting the deposit liabilities base to be sold if desired, but not thereby requiring divestiture of the deposit liabilities base from the financial institution.

For these reasons claims 1 and 8 are deemed to be allowable over the prior art of record, and claims 2-7, and 9-10 are allowable by dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

5. Allowable subject matter requires further review for applications in class 705 before a notice of allowance is mailed to applicant. The time period for review may vary from application to application.
